SUMMARY

As a full-stack developer, I specialize in frontend development with ReactJS and backend development using Spring Boot. I create scalable and high-performance applications, ensuring smooth functionality and a strong user experience. While my primary focus is on ReactJS and Spring Boot, I am also familiar with Angular, NodeJS, ExpressJS, and NestJS, and can quickly regain proficiency in these technologies when needed. My strengths include problem-solving, collaboration, and adaptability across multiple technologies, ensuring successful project delivery.
